BULBS

PLANTS AND OTHER
SEASONABLE STOCK
FOR FALL PLANTING
AND FORCING

W. A. MANDA, INC.

SOUTH ORANGE, N. J.

ALSO PLAINFIELD, N. J.

EUROPEAN BRANCH: ST. ALBANS, HERTS, ENGLAND

Bulbs for Fall Planting.

Hyacinths.

Hyacinths are among the most esteemed and universally grown of all bulbous plants, and they well-deserve the honor. Their pretty spikes of flowers, varying through all shades of red, rose, purple, blue and yellow to white, are among the earliest and most beautiful flowers of early spring-time, and by forcing and careful management in keeping a succession Hyacinths may be had in bloom nearly all winter and up to the end of May.

Romans.	Earliest white.	First size, 12 to 13.....	100	\$6.00
Romans.	Earliest white.	Extra selected, 13 and up.....	7.00	

"DUTCH ROMAN" HYACINTHS."

The smaller bulbs of some varieties of Dutch Hyacinths produce, considering their size, beautiful spikes of bloom. Can be forced for winter flowers or as pot or pan plants.

Picotee. White, margined deep rose30	2.00
Yellow Rose. Fine late yellow tulip30	2.00

Narcissus or Daffodils.

"Whoever has two loaves of bread, let him trade one for a blossom of Narcissus, for bread is nourishment to the body, but the Narcissus is food for the soul."—Mohammed.

The Narcissus in some of its species is a well-known and long-esteemed flower, being mentioned in Homer and in Sophocles, and one variety has been cultivated by the Chinese for thousands of years. During the last few years the flowers, as a class, have been rising in popular estimation, and growers have produced an almost endless list of varieties and hybrids. We offer only the best sorts.

NARCISSUS. Single Varieties.

	Dozen	100
Ard Righ. Bright golden yellow	\$0.40	\$3.50
Barri Conspicuous. Large yellow flower25	1.50

Jonquils, Double. Golden yellow35	2.00
Jonquils, Campenelle. Giant flowers25	1.25
Paper White Grandiflora. 13 and up25	1.50

Lilies.

The Lily has been esteemed for centuries, and has long been considered as the emblem of chasteness and purity. The class includes some of the finest of bulbous plants. They are peculiarly graceful in habit, possess striking combinations of color, and are especially suited for planting among low shrubbery or herbaceous plants, such as peonies, azaleas, etc. Some species bloom in May, while others are in flower in late autumn.

	Each	Dozen	100
Auratum (the Golden Banded Lily of Japan), large, 9 to 11...	\$0.25	\$2.50	\$18.00

Peach Blossom. Delicate pink, good for forcing	2.00	15.00
Queen Alexandra. Pink. Fine for forcing	2.00	15.00

List of Select Pot-Grown Strawberry Plants.

All pot-grown plants will produce a full crop of berries next season.

- ✓ Bubach. Mid-season, pistillate, one of the best berries for home use.
- ✓ Brandywine. Late, perfect, extra large.
- ✓ Clyde. Early to mid-season, perfect, scarlet berries, fine quality.
- ✓ Early May. Extra early, perfect, early variety, rich flavor.
- ✓ Excelsior. Extra early, perfect, produce four times as many berries, early sort.
- ✓ Gandy's Prize. Late, perfect, no better late berry can be wished.
- ✓ Glen Mary. Late, bi-sexual, it ripens a crop of berries in driest season.
- ✓ Marshall. Early, perfect, the best of all, berry very large.
- ✓ New York. Mid-season, perfect, the berries are large, dark scarlet.
- ✓ Nich Ohmer. Mid-season, perfect, berries largest size, rich, crimson.
- ✓ Rough Rider. Very late, perfect, recommend to all who desire a late berry.
- ✓ Sharpless. Mid-season, perfect, the best berry that can be had.

All of the above varieties, good, strong plants, 50c. per dozen; \$3.75 per 100.

All other varieties of Strawberries in stock and furnished at regular prices. Also other Fruit Stock.

Grass and Clover Seeds.

*We beg to draw the special attention of our patrons to the Universal Lawn Grass Seed Mixture, which is prepared to give the best results for fine lawns; also to the cheap Pasture Grass Mixture for meadows. We would also be happy to supply grass and clover seed separate, if desired.

MANDA'S UNIVERSAL LAWN SEED MIXTURE.

This Lawn Grass Mixture is composed entirely of the finest quality of fine-leaved, dwarf-growing grasses, in such proportions as will enable it to withstand the extreme heat of our summers. The grasses which compose this mixture are extra well cleaned, so that all weeds are excluded, leaving nothing but the pure, clean seed.

We recommend four bushels to the acre. It is necessary to sow the seed very thickly to get the most pleasing result—that is a good lawn.

The best time to sow grass seed is in the spring or about the latter part of August. We prefer the spring. The success of establishing a good lawn depends much on the season and the condition of the ground at the time of sowing. A light raking in will protect the seeds greatly. Rolling, however, is at all times indispensable, and should any weeds appear they should be eradicated.

MANDA'S UNIVERSAL MIXTURE IS AS GOOD AS ANY AND BETTER THAN MANY.

	Qt.	Pk.	Bush.
Manda's Universal Lawn Seed Mixture	\$0.25	\$1.25	\$4.50
Central Park Lawn Mixture20	1.15	3.50

Decorative Cut Greens, such as Boxwood, Holly, Asparagus, Polypodium fronds for Christmas or other decoration always on hand.		

Seasonable Stock for Fall Planting.

- Boxwood**—Fall is good time to plant. See pages 43-44, General Catalogue.
- Evergreen Conifers**—The best time is to plant early in the fall. See pages 31-47, General Catalogue.
- Fruit Trees**—Do best when planted in the fall. See pages 94-95, General Catalogue.
- Greenhouse and Conservatory**—Plants should be looked over and added to. We have the largest stock in the country, as shown on pages 72 to 88 of General Catalogue.
- Hardy Perennials**—Planted in the fall will give good result the first season. For lists of varieties and prices, see pages 31-51, General Catalogue.
- Hardy Trees and Shrubs**—Should be planted in October and November to get best results. For varieties, see pages 35-39, General Catalogue.
- Improvement of Garden**—Should be done all that is possible in fall, as spring season is very short. Read pages 21-34, General Catalogue.
- Novelties**—Should be always added to your stock so as to keep up to date and to keep up your interest. Read first 18 pages of General Catalogue and add to your stock.
- Visit Our Nursery** at South Orange, where you will find any plant that you are interested in.

Conifers or Evergreen Resinous Trees

One of the greatest classes of vegetation for outdoor ornamentation. From the loftiest trees, three hundred or more feet in height, to low prostrate shrubs rising barely a foot above the ground. These we consider as the most useful and most ornamental of our hardy trees, and which should be in every garden, either small or large. They can be used as isolated specimens for groups, hedges, windbreaks or shelters.

We have a grand stock of nearly two hundred varieties, in all sizes, from one foot to twenty feet in height, and would be pleased to send a special list of sizes and prices to intending purchasers.

- Abies Concolor (Silver Fir Colorado)**—One of the finest American evergreens.
- Abies Concolor Violacea (Fir)**—Bluer form of above.
- Abies Canadensis (Hemlock Spruce)**—Medium-sized tree, dark foliage.
- Abies Nordmanniana (Nordman Fir)**—Majestic, symmetrical form, dark green.
- Biota Nana Aurea**—Dwarf with flat golden branches.
- Biota Orientalis**—Taller than above, with lace-like foliage.
- Juniperus Chinensis Albo Spica**—Pyramidal, dark blue with white tips.
- Juniperus Chinensis Aurea**—Golden form of above.
- Juniperus Communis Hibernica (Irish Juniper)**—Erect, dense outline.
- Juniperus Japonica Aurea**—Dwarf plant with golden foliage.
- Juniperus Pfitzeriana**—Robust growth, dark green foliage, new.
- Juniperus Procumbens**—Dwarf, creeping variety, bluish color.
- Juniperus Sabina**—Dark green, dwarf.
- Juniperus Virginiana Glauca**—Compact, conical habit with glaucous foliage.
- Juniperus Virginiana (Red Cedar)**—Varies much in habit and color of foliage.
- Larix Europaea (European Larch)**—Tall growing pyramidal tree, drooping branches.
- Picea Alba (White Spruce)**—Medium height, pyramidal, foliage silvery gray.
- Picea Alcockiana**—Tall, dense habit, foliage pale green, glaucous underneath.

Picea Excelsa (Norway Spruce)—Rapid, lofty growth, pyramidal form, most popular.
Picea Excelsa Pendula—Pendulous variety of the Norway Spruce.
Picea Orientalis—Handsomeness, tall and compact, graceful habit, dark slender foliage.
Picea Polita—Distinct Japanese species. Erect and rigid habit, sharply pointed leaves.
Picea Pungens Glauca (Colorado Blue Spruce)—Lofty, pyramidal growth of rich blue color, one of the finest and hardiest conifers.

Picea Pungens Glauca Kosterii—Variety of the above. Finest blue color.
Pinus Austriaca (Austrian Pine)—Rapid growing tree; long, stiff, dark green needles.
Pinus Mugho—Upright spreading, small pine. General form of a bush.
Pinus Strobus (White Pine)—Most ornamental native pine; foliage light green.
Pinus Sylvestris (Scotch Pine)—Tall growing tree, stout, erect shoots, silver green.
Retinospora Filifera—Forms a wide cone, with delicate thread-like filaments.
Retinospora Filifera Aurea—Golden form of above, of dwarf growth.
Retinospora Pisifera—Large growing, pyramidal tree from Japan, green feathery.
Retinospora Pisifera Aurea—Golden form of the above.
Retinospora Plumosa—Small growing pyramidal tree, feathery clear green foliage.
Retinospora Plumosa Aurea—Golden variety of the above.
Retinospora Plumosa Sulphurea—Compact form, sulphur yellow color.
Retinospora Obtusa—Distinct, dark green of dwarf growth.
Retinospora Obtusa Gracilis—Upright growth, slender and graceful, light green.
Retinospora Obtusa Lutea Nova—Upright growth. The best yellow evergreen.
Retinospora Obtusa Nana—A curious Japanese tree; dwarf, irregular growth.
Retinospora Squarrosa Veitchii—Beautiful silvery foliage. Extensively used.
Taxus Baccata (English Yew)—Large bush or tree, densely branched, dark green.
Taxus Brevifolia—Similar to above, but of more upright growth.
Taxus Cuspidata—Dwarf, dark green, beautiful form.
Taxus Hibernica (Irish Yew)—Erect, resembling a dark green pillar.
Thuya Occidentalis (Arbor Vitae)—Native tree of medium height. Valuable for screens and hedges.
Thuya Occidentalis Geo. Peabody—Golden form of above.
Thuya Occidentalis Compacta—Dwarf compact, deep green foliage.
Thuya Occidentalis Pyramidalis—Upright, compact like the Irish Juniper.
Thuya Orientalis—Upright, compact with lace-like foliage.
Thuya Orientalis Compacta—Very dwarf form of above.

Larger or selected specimens up to 20 feet high, price on application.	Larger or selected specimens, price on application.

Visit Our Nursery and See Our Grand Stock of Conifers.

Buxus Suffruticosa (The Dwarf or English Box)

This variety is generally used for edging flower beds or walks, or for geometrical outline. It is of very slow growth and stays small and dwarf for years and years. However, if allowed to grow from fifty to two hundred years, it forms a grand bush, giving unusual tone to the garden not only as to beauty, but giving the whole surroundings age and finish. The large specimens are very scarce, and where a few of these could be used it certainly will make an effect not obtainable by any other plants.

GRAND CENTENARIAN SPECIMENS.

Each		Each	
3 to 5 inches for edging	\$0.05	3 foot specimens, very old and fine	\$18.00
5 to 8 inches for edging08	3½ foot specimens, and as wide	30.00

2 foot specimens, compact bushes..	4.50	6 foot specimens, and as wide	85.00
2½ foot specimens, compact bushes..	9.00	6½ foot specimens, and as wide	125.00

Buxus Sempervirens or Tree Box

One of our finest broad leaf Evergreen plants, hardy in most parts of the country and does fine especially if sheltered from the hot suns of the winter. This species could be used for innumerable purposes; the small plants for hedging, while the large plants could be used for larger hedges, or specimen plants either planted on the lawn, in the garden, in tubs or planted in vases, while the extra large specimens are choice plants that any garden can be proud of. The fan-shaped and sheared specimens add quaintness and interest when used in formal gardens.

Natural Bush

These are plants grown naturally as the plant elects and forms broad, round head bushes which can be used for innumerable purposes and are the easiest to take care of.

Each		Each	
10 inch high for edging	\$0.25	3½ foot specimens, very broad.....	\$6.00
12 inch high for edging35	4 foot specimens, very broad.....	9.00
15 inch high for edging50	4½ foot specimens, very broad.....	14.00

15 inch crown	2.50	3 foot crown	15.00
18 inch crown	3.00	3½ foot crown	25.00
2 foot crown	5.00	3½ to 4 foot crown	35.00

We have a beautiful old hedge 500 feet long from three to five feet in height, and from four to six feet in diameter. This hedge must be close to one hundred years old and would make a grand effect along a walk or a drive leading to a colonial residence or as a hedge around a choice flower garden.

Plants for House and Conservatory. Foliage Plants.

Selected list of plants that we can strongly recommend

	Each
Anthericum Mandaianum. Fine plants, 3-inch pots,	\$0.35
Anthericum Mandaianum. Fine plants, 4-inch pots50
Araucaria excelsa (Norfolk Island Pine). Fine for cool temperature	3.00
Aspidistra lurida. Most durable, effective plant75
Asparagus elongatus (Manda). per dozen, \$2.50; plants25
Asparagus retroflexus. Semi-climbing, bright green	\$0.50 to 1.00
Cyperus alternifolius variegatus. Foliage variegated	1.00
Dracaena hybrida. Red, white and pink foliage	1.00
Dracaena indivisa. Narrow-leaved, for vases, very hardy50
Dracaena Lindenii. Green with yellow stripes	2.00
Dracaena Massangeana. Green with yellow middle	1.75
Dracaena Rothiana. The hardiest of all Dracaenas for house decoration. Fine plants at	\$1.50 to 5.00
Dracaena Sanderiana. Narrow leaves, white and green50
Dracaena. 25 other varieties, according to size50 to 3.00
Ficus elastica. The well-known rubber-plant50
Ficus elastica variegata. Yellow and green foliage	2.50
Fittonia argyroneura. Beautiful stove evergreen plant25
Fittonia Verschaffeltii. Midrib of foliage dark red25
Maranta Kerchoviana. Green, with purplish blotches50
Ophiopogon Jaburan fol. var. Dwarf, variegated plant50
Pandanus utilis. A beautiful house plant, very durable	\$1.00 to 2.00
Philodendron pertusum. Grand foliage, very durable	1.00
Tradescantia Laekenensis. White, green and pink foliage25
Tradescantia. Dracaenoides. Dracaena-like, forming strong streamers50
Tradescantia, South Orange Golden (Manda). Bright golden yellow foliage.....	.25

Flowering Plants.

Which we can highly recommend for house and conservatories.

	Each
<i>Anthurium Andreanum</i> . Orange red, with yellow	\$2.00
<i>Anthurium Brownii</i> . Deep blood red flower	3.00
<i>Erica</i> (in varieties). Choice greenhouse plants	\$1.00 to 3.00
<i>Euphorbia jacquinaeflora</i> . Winter flowering plant, bright red50
<i>Hibiscus</i> . In leading varieties	\$0.25 to 5.00
<i>Libonia floribunda</i> . Scarlet, yellow-tipped flowers50
<i>Linum trigynum</i> . Deep orange flowers25
<i>Plumbago Capensis</i> . Blue flowers	1.00

Ferns.

We consider the list given below the very finest of all the Fern family, for house and conservatory culture.

	Each
<i>Adiantum O'Brienii</i> . A very hardy variety; one of the best	\$0.25 to \$0.50
<i>Aspidium tensuimense</i> . A dwarf dense sort; very hardy25
<i>Aspidium viridescens</i> . Fine arching fronds; Japanese variety	1.50
<i>Asplenium bulbiferum</i> . Beautiful arching fronds75
<i>Asplenium nidus avis</i> (Bird's Nest Fern)	2.00
<i>Emelliana</i> . The most useful of the whole family25
<i>Nephrolepis tuberosa</i> . Upright, arching leaves50
<i>Nephrolepis tuberosa plumosa</i> . Fringed variety of the above50
<i>Platycerium alcorni</i> (Stag Horn Fern)	1.00
<i>Platycerium alcorni majus</i> . A fine form of the above	2.50
<i>Platycerium Aethiopicum</i> . Large, broad fronds	3.50
<i>Polypodium Mandaianum</i> (Manda)	\$1.50 to 5.00
<i>Polystichum Varium</i> . Strong plants; \$2.50 per dozen25
<i>Selaginella</i> . Beautiful dwarf Ferns or Mosses, suitable for rockwork and pan culture.	
<i>Caesia</i> . Beautiful colored leaves, dwarf25
<i>Cibotium Schiedeii</i>	\$2.50 to 10.00
<i>Denticulata</i> (Florida Moss). Spreading, dwarf, green25
<i>Denticulata aurea</i> . A yellow variety of the above25
<i>Mandaiana</i> . New hanging species, beautiful plant for any purpose50

Palms.

The list of Palms given below we can strongly recommend for the house, being the hardiest of all the Palm family.

	Each
<i>Cocos Weddelliana</i> . Very graceful, useful small palm	\$0.50 to \$5.00
<i>Kentia Belmoreana</i> . The most useful palm for decoration50 to 5.00
<i>Kentia Fosteriana</i> . Tall and graceful, hardy and useful50 to 5.00
<i>Phoenix Canariensis</i> . Handsome variety, useful for decoration	1.00 to 5.00

Seasonable Stock for Fall Planting

Evergreen Conifers. The best time is to plant early in the fall, see pages 31 to 47 General Catalogue.

Boxwood. Fall is good time to plant. See pages 43 and 44 General Catalogue.

Hardy Trees and Shrubs. Should be planted in October and November. To get best results for varieties, see pages 35 to 39 General Catalogue.

Hardy Perennials. Planted in the fall will give good results the first season. For list of varieties and prices, see pages 31 to 51 General Catalogue.

Fruit Trees. These do best when planted in the fall. See pages 94 and 95 General Catalogue.

Fertilizers. They are always better when applied in the fall to get results the following spring. Sheep manure at \$2.00 per 100-pound bag is the safest and cheapest.

Improvements of Garden. All of this that is possible should be done in the fall as the spring season is very short. Read pages 21 to 34 of General Catalogue.

Novelties. These should always be added to your stock so as to keep up to date and to keep up your interest. Read first 18 pages of General Catalogue and add to your stock.

Greenhouse and Conservatory. Plants should be looked over and added. We have the largest stock in the country as shown on pages 72 to 88 of General Catalogue.

Visit Our Nursery at South Orange where you will find any plant that you are interested in.
